Mayflower

Founded as an alternative to railroad transportation, Mayflower helped its first customers move across the country in 1927. Building on that heritage, Mayflower has grown to become the most recognized name in moving.

With more than 200 agency locations across the country, Mayflower has quality service providers to relocate families, members of the United States military and corporate clients regardless of where they are moving.

In 1995, UniGroup acquired Mayflower, which today is both a sister company and active competitor of United Van Lines.
